Minutes: Moved Brewer second Duncan to accept Jan 20th minutes Vote 4-0
Virginia Cassidy read a letter regarding interaction between her husband and
Town Manager regarding tax information for 1099. He plows the
Fish Pier. Board listened to the letter, Board requested that social security
information be given the Town Hall so 1099's can be completed. Regrets
that past oversight on the Town's part did not require this information but
by law it is needed. Also explained workers comp town requirements if not
held by the contractor. She will provide numbers.

Budget: Go over budget and combination of warrant articles to hopefully make
Town meeting easier. Sign Town warrant, to be posted for town meeting

Hearing: Go over points for February 10th public hearing on budget, etc.
Will discuss: Budgeting, Tax Bills, Mill rates, warrants, Effects of surplus.
Talk about effect of school budget on town taxes.

Funding: With the new President and the multiple possible changes that might
happen, what will happen to future funding, already approved funding,
Should we stop projects? Stop spending? What must be finished and how
to do that. If tariffs come in how will that effect this budget. Must finish
Oceanville, must finish Main Street, we could halt the old School building
project, Odd fellows hall project? Fortunately the town is in good financial
shape so we should be able to weather this potential storm.

Old: Auditor coming back this week.
Dewel informed the Board that Island Workforce Housing has closed on
the Stonington property so they will begin their new housing project.

Respectively submitted;

Evelyn K Duncan
